Regularity of vegetables/fruits intake

Allgemeine Informationen:

*Note: This item was tested in German. This is an English translation of the original German wording.*

Fragetext:

Please look at card 2. In a regular week, how often do you consume a serving of fruits or vegetables?

[Bitte sehen Sie sich Liste 2 an. In einer normalen Woche – wie oft nehmen Sie eine Portion Obst oder Gemüse zu sich?]

Antwortkategorien:

Every day
3-6 times a week
Twice a week
Once a week
Less than once a week

Eingesetzte kognitive Technik/en:

Emergent Probing
Befund zur Frage:

Since the explanation is only given in question 3, do the respondents have difficulties in defining a “serving” in question 2?

None of the respondents asked what was meant by "a serving of fruit or vegetables" in this question or commented otherwise on the lack of a definition of a serving. However, to ensure that respondents in the main survey are thinking of comparable servings, we recommend adding an explicit definition to the question.

Empfehlungen:

Question: The question should be supplemented by a definition of what is meant by “a serving of fruits or vegetables.” A possible formulation can be found in the recommendation on question 3. Furthermore, the question could be simplified grammatically:

'How often do you consume a serving of fruits or vegetables in a regular week?''

[„Wie oft nehmen Sie in einer normalen Woche eine Portion Obst oder Gemüse zu sich?“]

Response options: We recommend making the answer options uniform and either write out "three to six times" [„Drei- bis sechsmal“] or write all response options as numbers.
