Searching for health-related information
Searching for other information
Taking part in a forum or online community
Accessing online dating services

**Eingesetzte kognitive Technik/en:**
Specific Probing

**Befund zur Frage:**

1. **Is an answer category missing?**

The probe whether the test persons had used the Internet for other activities not mentioned in the question was answered in the affirmative only by test person 02, who runs her own website: "I run my own website and am my own webmaster. I do that every day. I set up a server with a friend of mine, yes, the usual. Nothing special." (TP 02)

Two test persons (TP 03, 04) interrupted the test leaders before they could read out the answer options and explained that they had no Internet:

- "I don't have Internet. I do not need it. I don't even have a smartphone." (TP 03)
- "I don't have Internet." (TP 04)

In order to clearly distinguish the answers of such respondents from "don’t know" answers, refusals or even interviewer errors (when not noting down the respondents’ answers), we recommend adding an additional answer option such as "I do not use the Internet".

2. **Are all answer categories understandable?**

All eight test persons using the Internet found the answer categories 'rather understandable' (n = 2) or "very understandable" (n = 6). Accordingly, none of the test persons stated that they were unclear or unfamiliar with any of the activities.

**Empfehlungen:**

Question: Since both a single and multiple answers can occur, we recommend adding 'one or more of the' to the question:

"Have you used the Internet in the last 3 months for one or more of the following activities?".

[„Haben Sie während der letzten 3 Monate das Internet für eine oder mehrere der folgenden Tätigkeiten genutzt?“.]
Response Options: The answer options should be supplemented by the category "I do not use the Internet" ["Ich nutze das Internet nicht"]. In addition, we recommend making a modification to the last answer option in the German translation ("Nutzung von Onlinedating-Diensten").
